

GMAT® - Graduate Management Admission Test®

Official Score Report - Test Taker Copy

GEORGE POPESCU
Rue De Carouge 69
Geneva, 1205
Switzerland

Issue Date: 24 April 2017

Test Taker Information

Telephone Number: 762695431
E-mail Address: popescugeorge2003@yahoo.com
Date of Birth: 18 April 1986
Gender: Male
Country of Citizenship: Romania
GMAT ID: 10000801770
Appointment Number: 314182938

Optional Test Taker Information (Self-Reported)

Graduation Date: July 2009
Undergraduate GPA: 4.00 (Based on a 4.0 scale)
Highest Education Level: Have attained a doctoral degree
Undergraduate Institution:
Undergraduate Major: Computer Science
Intended Graduate Study: Full-time student

Test Information (Score / % Below)

For the Quantitative, Verbal, Total and Analytical Writing sections, the percentages shown below represent the proportion of tests taken in the previous three years with reported scores lower than this score. The percentage shown below for the new Integrated Reasoning section represents the proportion of IR tests taken so far with reported scores lower than this score. This percentage is updated monthly for the first six months and annually thereafter.

To view the most recent percentile table, please visit mba.com. See below for alphabetic score key.

Test Date	Verbal	Quantitative	Total	Analytical Writing	Integrated Reasoning
06 April 2017	34 / 72%	50 / 87%	690 / 86%	5.5 / 81%	6 / 69%
16 August 2012	29 / 57%	50 / 87%	660 / 79%	5.5 / 81%	6 / 69%

▪ **C (Self canceled)**-Test taker voluntarily canceled the score on the day of the test.

▪ **~ (Not Available)**-Score is missing because the GMAT did not include an Integrated Reasoning section prior to June 5, 2012.

▪ **P (Policy Violation)**-GMAC® canceled the score due to a testing policy violation by the test taker. Policy violation for purposes of this identifier includes improperly accessing a mobile phone or study materials, disruptive behavior that interfered with other test takers or test center personnel or noncompliance with any term or condition in the *GMAT Handbook*, the GMAT Examination Testing Rules and Agreement, or the GMAT Non-Disclosure Agreement and General Terms of Use Statement, other than incidents which are characterized as "serious violations," as defined at right.

▪ **T (Testing issue)**-GMAC canceled the score due to an issue that affected the administration of the test. Examples include, but are not limited to, administrative errors, equipment problems, issues related to registration or payment, and disruptions caused by illness, natural disasters or other emergencies.

▪ **S (Serious violation)**-GMAC canceled the score because of a discrepancy in, or falsification of, a test taker's identification; improper access to or any disclosure of test content prior to, during, or after the test administration; proxy testing; or falsification of score reports. (The use of "serious violation" for this purpose is not intended to minimize the significance or seriousness of other violations of GMAT testing rules.)

Score Report Recipients - Appt. Number 314182938

At your request, an Official Score Report - School Copy has been sent to the graduate management program(s) listed below. All of your GMAT exam scores from the past five years were reported to each program. Please allow three weeks for the programs you have designated to receive your score reports.

Harvard University - Harvard Business School - MBA, Full Time
Boston, Massachusetts, United States

INSEAD - Business Programs - Executive MBA Programmes
Singapore, Abu Dhabi, , France

INSEAD - Business Programs - MBA, Full Time
Fontainebleau, , France

Stanford University - Stanford Graduate School of Business - MBA, Full Time
Stanford, California, United States

University of California - Berkeley - Haas School of Business - MBA for Executives
Berkeley, California, United States

To send your scores to additional programs, please visit mba.com, contact GMAT Customer Service at <https://www.mba.com/service/contact-us.aspx> or complete the order form provided on mba.com.

Answers to Frequently Asked Questions

What does the GMAT exam measure?

The GMAT exam measures basic verbal, mathematical, analytical writing, and integrated reasoning skills that you have developed over a long period of time in your education and work. The *Integrated Reasoning* section requires candidates to interpret and analyze information from different sources and in a variety of formats to solve complex reasoning tasks. The *Verbal* section measures your ability to understand and evaluate what you read, as well as your ability to recognize basic conventions of standard written English. The *Quantitative* section tests quantitative reasoning ability. The *Analytical Writing Assessment* section measures your ability to think critically and communicate complex ideas in writing. Your GMAT scores should not be compared with other test scores. Although the GMAT score scales may resemble those used for other tests, the scores are not directly related.

What doesn't the GMAT exam measure?

It does not measure your knowledge of business, your job skills, or subjective qualities such as motivation, creativity, and interpersonal skills. If a test taker's first language is not English, he or she may still perform well on the exam; however, the GMAT exam may not accurately reflect the abilities of someone who is not proficient in English.

How are the Analytical Writing Assessment scores used?

The Analytical Writing Assessment is used to provide an independent ranking of your ability to think critically and to communicate clearly when writing in English. Writing scores are computed separately from the scores for the multiple-choice sections of the test and have no effect on the Verbal, Quantitative, or Total scores.

What do GMAT scores predict?

GMAT scores are a valid predictor of academic performance in the first year of a graduate management program. Since creating the GMAT exam 50 years ago, we have conducted hundreds of validity studies that demonstrate this fact. In the past ten years, we've conducted almost 300 studies for graduate management programs all over the world. The median correlation between GMAT scores and first-year grades was 0.51 (perfect correlation is 1.0). The median correlation between undergraduate grade point average and first-year grades was 0.28. Thus, GMAT scores are generally a better predictor of performance in the first year of business school than undergraduate grades, though we advise admissions committees to use both when evaluating candidates.

How reliable are GMAT scores?

Test scores actually earned on any given occasion are only an approximation of your true ability. However, our research indicates that you will most likely earn a Total score within about 30 points of a score reflecting your true ability. Your Verbal and Quantitative scores are probably within 2.9 points of your true scores. If you take the GMAT exam more than once, you probably will not receive exactly the same scores. "Reliability" indicates the degree to which you would keep the same score if you were to take the test more than once (perfect reliability is 1.00). The average reliability of the GMAT Total score is 0.93. Average reliability is 0.87 for the Verbal score and 0.90 for the Quantitative score. Therefore, the reliability of GMAT scores is very high.

How long are my GMAT scores valid?

Scores are usually reported up to five years from the date you took the exam. With a special request and for an additional fee, you may report scores up to 10 years from the date you took the exam. However, scores more than five years old will be accompanied by a statement indicating that they must be

interpreted with care; many institutions will not accept scores over five years old. On behalf of GMAC, Pearson VUE destroys all score records more than 10 years old.

How should my scores be used?

Admissions committees typically use GMAT scores in conjunction with your academic record(s) and other information obtained from application materials. Unlike academic grades—which vary in meaning according to the grading standards of each school—GMAT scores are based on the same standard for all test takers and can be compared across all GMAT test administrations.

It is appropriate for GMAT scores to be used as an admissions tool for graduate study in management or as a basis for selecting applicants for financial aid based on academic potential. GMAT scores should **not** be used as a requirement for awarding a job; as a requirement for employment, job licensing or certification, or job-related rewards such as raises or promotions; or as an achievement test.

How do I send my scores to schools?

Approximately 20 days after your test date, your Official Score Report, including the digital photograph you provided at the test center and copies of your essays, are made available to any graduate management program you designated when you took the GMAT exam. Not all graduate management programs elect to receive photographs and essays. Once scores are made available, a school you designate can access your scores at any time. If you have not yet designated schools to receive your scores, or if you want to designate additional schools, visit www.mba.com or call GMAT Customer Service. We will report results from all tests you took in the last five years.

Who has access to my scores?

Score reports, which include copies of essays and a digital photograph if a designated graduate management program has elected to receive them, are released only at your specific request—either when you take the test, or when you request an Additional Score Report (ASR)—unless required by law, to cooperate in judicial or governmental proceedings, as necessary to detect or prevent unlawful activity, or as otherwise provided in the Privacy Policy on www.mba.com/privacy and in the *GMAT Handbook*.

Should I decide where to apply based on my scores?

You may be doing yourself a disservice if you rely solely on your GMAT scores to decide where to apply, or even whether to apply at all. Schools treat GMAT scores as only one of several predictors of performance. Most schools publish average and mid-80% range scores for the students they admit. Averages can be skewed by unusually high scores. For that reason, you can generally get a better understanding of the types of GMAT scores a school typically admits by looking at the mid-80% range, which indicates the scores earned by 80% of students who were admitted.

How will retaking the GMAT exam affect my chances of admission?

Admissions committees treat multiple scores in a variety of ways. They may use only your highest scores, your most recent scores, or an average of your scores. You should contact schools directly to learn how they use multiple GMAT scores.

Can I now cancel my scores?

You can cancel your scores only at the test center *immediately after you take the test*. Once your scores have been reported, they become part of your permanent score record and cannot be canceled.
