Re: Reference letter for George Popescu

To Whom It May Concern,

George worked as Associate Sales Consultant in my department, the Oracle EMEA Technology Presales Service Center (PSC), from September 2008 until June 2009. In this period George performed numerous tasks in support of the UK sales organization.

Some examples of George's responsibilities during his period of employment are: producing sales newsletters; provide generic company information for tender documents and format proposal documents to have a professional & consistent look and feel.

George was willing to do what was needed to get a particular task finished. Because there were often last-minute deadlines, his cooperative attitude and good cheer were important and appreciated.

George deserves serious consideration as a potential employee.

Sincerely,

Johan van Streun

Sr. Director Technology Presales Services
Oracle EMEA
